#### Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's Drug store. Regular size 50c. and \$1.

#### The Lexington Asylum Scandal.

LEXINGTON, Ky., July 27.—A report gained circulation here to-day that unless Dr. Scott, Superintendent of the Eastern Kentucky Lunatic Asylum, shall be ousted by the Governor the Commissioners will resign. There are two Republicans on the board and both are opposed to the manner in which the institution is managed. Steward Cardwell denied that he has been purchasing food of an inferior quality. He has filed requisitions given him by Dr. Scott, securing the best to be had, he says. Dr. Scott has discharged three of the employees who testified against him before the grand jury, which recommended his removal.

#### HALF A MILLION DOLLAR FIRE.

Eight Hundred People Thrown Out of Employment.

NEW YORK, July 28.—Fire at Yonkers, N. Y., yesterday afternoon destroyed two large factory buildings occupied by W. A. Reed & Company, hat manufacturers; Rowland Brothers, hat manufacturers; Pass Brothers, silk manufacturers, and the Yonkers Silk company. The loss will probably reach \$500,000 and 800 people are thrown out of employment. There were no casualties, though the buildings were crowded with employees when the fire was discovered.

The fire originated in the blowing room of the hat factory of William Reed & Company on the lower floor of the Shethar building. Two large gas meters exploded immediately after the flames burst forth, and the escaping gas from the meters helped to feed the flames. Within a few minutes the fire was breaking through the windows of the first and second stories. There were 600 men and girls in the building, the third, fourth and fifth floors of which were occupied by the silk factories. Intense excitement prevailed while the employees left the building by the fire escapes, the girls being taken out first, and all losing their street clothes, so little time was given.

The fire soon ate out the heart of the building and then portions of the wall fell. The wind carried the flames to the building occupied by Rowland Brothers' hat factory, and the interior of this structure was destroyed.

Just across the street from the building in which the fire started are the big works of Alexander Smith & Sons, the largest carpet manufacturers in the United States. For some time it looked as though these would go. Two thousand persons were at work in the carpet factories when the fire broke out. They were dismissed and the works closed.

The lowest estimate of the losses is \$400,000, and

#### JAPANESE STRATEGY.

Hundreds of Soldiers to Be Secretly Land ed in Honolulu.

ST. LOUIS, July 28.—A special to The Globe-Democrat from Los Angeles, says: A letter written by a Japanese official in Japan to a former Japanese officer living in this city conveys the information that the Japanese government will forward to Honolulu in the latter part of July 1,500 Japanese emigrants. Those individuals are now in the garrison at Negata, being soldiers in the Japanese service, and will go on shore in Honolulu as simple citizens, but drilled and ready for military duty at once.

The steamers which are to convey these men have been chartered by the Japanese government and carry in addition to the 1,500 passengers, arms, ammunition and military stores of sufficient quantity to make it interesting for any party trying to prevent their landing. In addition, three large men-of-war are already prepared to leave Yokohama, to arrive at Honolulu at about the same time as the landing of the so-called emigrants will take place.

The correspondent, who has been educated in the United States, used the expression no doubt acquired when here: "We will get there and don't you forget it," and remarked further: "I can not write this in my own language, but you understand English predictions conveyed in a previous letter from this official were verified."

Her husband then killed it. It was a common house snake.
